

Public Comments and Responses for the Sarah Creek and Perrin River No Discharge Zone Draft application

Public Meeting: July 27, 2016

Comment Period: July 28, 2016 – August 26, 2016

Introduction

A public meeting was held on July 27, 2016 to provide a summary of the draft application for No Discharge Zone designations in Sarah Creek and Perrin River located in Gloucester County and to seek public comment. The application and meeting presentations were also made available on the Virginia Department of Environmental Quality (DEQ) website. There was a 30 day public comment period from July 28, 2016 – August 26, 2016. All comments received were via email. The full text of each of those emails is provided below along with DEQ's response.

Public Comment

To Whom it May Concern:

I am writing to support a No Discharge Designation for Sarah's Creek and Perrin River. I have worked on and out of these water bodies for nearly 30 years as a waterman and shellfish farmer. I currently live on Perrin River. The designation will advance efforts to improve local water quality, reducing some of the conditions that currently cause both water bodies to be condemned for shellfish harvesting. It will facilitate the County's efforts to meet nutrient reductions required under the Bay TMDL, and it will facilitate efforts to raise awareness in local residents and the boating public regarding a variety of water quality issues.

Thank you for your consideration.

Tommy Leggett

DEQ Response

Hi Mr. Leggett,

Thank you for your comments supporting the draft application for the designation of No Discharge Zones in Sarah Creek and Perrin River and for your efforts over the past 30 years. Public comments are an important element in the No Discharge Zone application process so we truly appreciate your input. Your comment will be included in a 'Public Comments' document that will be posted on DEQ's No Discharge Zone webpage. It will also be

incorporated into a summary of comments that are provided to the State Water Control Board, the Secretary of Natural Resources, and EPA with the submittal of the No Discharge Zone application.

Thanks again,

Anne Schlegel

Public Comment

Ms. Schlegel,

Count me in on the support of the NDZ for both the Sarah Creek and Perrin River. Every little bit will help us restore the York River and the Bay to being a more enjoyable and productive natural resource.

Walt Evaniak

DEQ Response

Hi Mr. Evaniak,

Thank you for your comments supporting the draft application for the designation of No Discharge Zones in Sarah Creek and Perrin River. Public comments are an important element in the No Discharge Zone application process so we truly appreciate your input. Your comment will be included in a 'Public Comments' document that will be posted on DEQ's No Discharge Zone webpage. It will also be incorporated into a summary of comments that are provided to the State Water Control Board, the Secretary of Natural Resources, and EPA with the submittal of the No Discharge Zone application.

Thanks again,

Anne Schlegel

Public Comment

Dear Ms. Schlegel,

I would like to express my support for designation of no discharge zones in Gloucester County's Sarah Creek and Perrin River. As a former resident in Gloucester Point and now living in Williamsburg, this designation will advance efforts to improve local water quality, reducing some of the conditions that currently cause both water bodies to be condemned for shellfish harvesting. It will facilitate the County's efforts to meet nutrient reductions required under the BayTMDL, and it will facilitate efforts to raise awareness in local residents (and raise awareness in other counties) and the boating public regarding a variety of water quality issues. d

Thank you for consideration of this request,

Sincerely,

Scott Lerberg

DEQ Response

Hi Mr. Lerber,

Thank you for your comments supporting the draft application for the designation of No Discharge Zones in Sarah Creek and Perrin River. Public comments are an important element in the No Discharge Zone application process so we truly appreciate your input. Your comment will be included in a 'Public Comments' document that will be posted on DEQ's No Discharge Zone webpage. It will also be incorporated into a summary of comments that are provided to the State Water Control Board, the Secretary of Natural Resources, and EPA with the submittal of the No Discharge Zone application.

Thanks again,

Anne Schlegel

Public Comment

I am writing to express support for designation of no discharge zones in Gloucester County's Sarah Creek and Perrin River. My father-in-law is an oyster gardener and water quality is important to us.

Thank you for your consideration,

Dawn

DEQ Response

Hi Dawn,

Thank you for your comments supporting the draft application for the designation of No Discharge Zones in Sarah Creek and Perrin River. Public comments are an important element in the No Discharge Zone application process so we truly appreciate your input. Your comment will be included in a 'Public Comments' document that will be posted on DEQ's No Discharge Zone webpage. It will also be incorporated into a summary of comments that are

provided to the State Water Control Board, the Secretary of Natural Resources, and EPA with the submittal of the No Discharge Zone application.

Thanks again,

Anne Schlegel

Public Comment

Ms. Schlegel:

I found the subject NDZ application complete and justified the request to establish and NDZ for the these two bodies of water.

I request that your office submit this application to the EPA and recommend approval.

Thank you in advance,

Phil Olekszyk

DEQ Response

Hi Mr. Olekszyk,

Thank you for your comments supporting the draft application for the designation of No Discharge Zones in Sarah Creek and Perrin River. As you know, public comments are an important element in the No Discharge Zone application process so we truly appreciate your input. Your comment will be included in a 'Public Comments' document that will be posted on DEQ's No Discharge Zone webpage. It will also be incorporated into a summary of comments to be provided to the State Water Control Board, the Secretary of Natural Resources, and EPA with the submittal of the No Discharge Zone application.

Thanks again,

Anne Schlegel

Public Comment

Hello Anne,

I'm writing to you as a citizen of Gloucester County, to give my support for the designation of the no discharge zones in Sarah Creek and Perrin River - a positive step towards improving local water conditions.

Best,

Susan

DEQ Response

Hi Susan,

Thank you for supporting the draft application for the designation of No Discharge Zones in Sarah Creek and Perrin River. Public comments are an important element in the No Discharge Zone application process so we appreciate your input. Your comment will be included in a 'Public Comments' document that will be posted on DEQ's No Discharge Zone webpage. It will also be incorporated into a summary of comments to be provided to the State Water Control Board, the Secretary of Natural Resources, and EPA with the submittal of the No Discharge Zone application.

Thanks again,

Anne Schlegel

Public Comment

Dear Ms. Schlegel,

I am writing to provide my strong support for the designation of a no discharge zone in Gloucester County's Sarah Creek and Perrin River. This designation will greatly improve local water quality and help the County's efforts in meeting its nutrient reductions required under the Bay TMDL.

Sincerely,

Patricia (Tricia) Thibodeau

Graduate Student | Virginia Institute of Marine Science

DEQ Response

Hi Ms. Thibodeau,

Thank you for supporting the draft application for the designation of No Discharge Zones in Sarah Creek and Perrin River. Public comments are an important element in the No Discharge Zone application process so we appreciate your input. Your comment will be included in a 'Public Comments' document that will be posted on DEQ's No Discharge Zone webpage. It will also be incorporated into a summary of comments to be provided to the State Water Control Board, the Secretary of Natural Resources, and EPA with the submittal of the No Discharge Zone application.

Thanks again,

Anne Schlegel

Public Comment

Dear Anne,

I write to express my support for the the designation of Sarah Creek and the Perrin River as no discharge zones. An an oceanographer who studies nitrogen cycling and harmful algal blooms I am well aware of the negative impacts of this discharge on the environment. As a property owner in Gloucester County I am concerned about the impact of environmental degradation on quality of life and real estate values. Stopping the discharge from boats is just a good idea from so many angles.

Respectfully,

Debbie Bronk

DEQ Response

Hi Deborah,

Thank you for supporting the draft application for the designation of No Discharge Zones in Sarah Creek and Perrin River and for your very important work. As you know, public comments are an important element in the No Discharge Zone application process so we really appreciate your input. Your comment will be included in a 'Public Comments' document that will be posted on DEQ's No Discharge Zone webpage. It will also be incorporated into a summary of comments to be provided to the State Water Control Board, the Secretary of Natural Resources, and EPA with the submittal of the No Discharge Zone application.

Thanks again,

Anne Schlegel

Public Comment

Ms. Schlegel,

I am writing you to express my support for designation of no discharge zones in Gloucester County's Sarah Creek and Perrin River.

John M. Ward

DEQ Response

Hi Mr. Ward,

Thank you for supporting the draft application for the designation of No Discharge Zones in Sarah Creek and Perrin River. Public comments are an important element in the No Discharge Zone application process so we really appreciate your input. Your comment will be included in a 'Public Comments' document that will be posted on DEQ's No Discharge Zone webpage. It will also be incorporated into a summary of comments to be provided to the State Water Control Board, the Secretary of Natural Resources, and EPA with the submittal of the No Discharge Zone application.

Thanks again,

Anne Schlegel

Public Comment

Dear Anne Schlegel:

I was informed by a colleague that Gloucester County is proposing to designate Sarah Creek and the Perrin River as No Discharge Zones for sewage from boats -- I am shocked that it hasn't been designated as such already. I strongly support this vital step in improving water quality locally and for the bay. A great number of people swim and fish and play in this water throughout the year, including my husband, who is daily recreational user (non-motorized) of the shoreline along VIMS and Sarah Creek. Many of my coworkers (and previously myself) perform a lot of immersion field work in the York River and the bay. Thank you for your work toward achieving this crucial step that should have been implemented decades ago!

Best regards,

Alynda Miller

DEQ Response

Hi Alynda,

Thank you for input and comments supporting the draft application for the designation of No Discharge Zones in Sarah Creek and Perrin River. Public comments are an important element in the No Discharge Zone application process so we really appreciate your input. Your comment will be included in a 'Public Comments' document that will be posted on DEQ's No Discharge Zone webpage. It will also be incorporated into a summary of comments to be provided to the State Water Control Board, the Secretary of Natural Resources, and EPA with the submittal of the No Discharge Zone application. The York River is certainly a wonderful resource for many uses.

Thanks again,

Anne Schlegel

Public Comment

Dear Ms. Schlegel,

I am writing in support of the designation of no discharge zones in Sarah's Creek and the Perrin River in Gloucester County.

As an area resident, I heartily support all efforts to improve our water quality.

Thank you,

Jessica Hendricks

DEQ Response

Hi Ms. Hendricks,

Thank you for supporting the draft application for the designation of No Discharge Zones in Sarah Creek and Perrin River. Public comments are an important element in the No Discharge Zone application process so we really appreciate your taking the time to send a comment. Your comment will be included in a 'Public Comments' document that will be posted on DEQ's No Discharge Zone webpage. It will also be incorporated into a summary of comments to be provided to the State Water Control Board, the Secretary of Natural Resources, and EPA with the submittal of the No Discharge Zone application.

Thanks again,

Anne Schlegel

Public Comment

Dear Ms. Schlegel:

I'm writing to you to simply express my unqualified support for designation of no discharge zones in Gloucester County's Sarah Creek and Perrin River. I believe this is an important step in the right direction to improve the water quality in the area. Thank you for your consideration.

Joseph Zhang

DEQ Response

Hi Mr. Zhang,

Thank you for supporting the draft application for the designation of No Discharge Zones in Sarah Creek and Perrin River. Public comments are an important element in the No Discharge Zone application process so we really appreciate your taking the time to send a comment. Your comment will be included in a 'Public Comments' document that will be posted on DEQ's No Discharge Zone webpage. It will also be incorporated into a summary of comments to be provided to the State Water Control Board, the Secretary of Natural Resources, and EPA with the submittal of the No Discharge Zone application.

Thanks again,

Anne Schlegel

Public Comment

Dear Ms. Schlegel,

Sarah Creek and Perrin River are both extremely important to our water system, thus I feel it is imperative that we act now and designate both waterbodies in Gloucester County as no discharge zones. Please keep the health of our waterways, the foundation of our community, as a top priority for us all to thrive in the future.

Sincerely,
Jim DelBene

DEQ Response

Hi Mr. DelBene,

Thank you for your input and for supporting the draft application for the designation of No Discharge Zones in Sarah Creek and Perrin River. Public comments are an important element in the No Discharge Zone application process so we really appreciate your taking the time to send us your feedback. Your comment will be included in a 'Public Comments' document that will be posted on DEQ's No Discharge Zone webpage. It will also be incorporated into a summary of comments to be provided to the State Water Control Board, the Secretary of Natural Resources, and EPA with the submittal of the No Discharge Zone application.

Thanks again,

Anne Schlegel

Public Comment

Dear Ms. Schlegel,

Although I live in Williamsburg, I keep my sailboat in the lower Chesapeake Bay (Hampton,VA) and often sail in the York River, using the marina in Sarah Creek for overnight docking in summer and storage in winter. I am writing to support the designation of Sarah Creek and the Perrin River as No Discharge Zones for sewage from boats.

Thank you,
Dixon W. Wilde

Public Comment

Dear Anne,

I am writing to express my support for designation of no discharge zones in Gloucester County's Sarah Creek and Perrin River. This is a critical step in reducing conditions that contribute to closures, especially pertinent to the booming aquaculture industry, not to mention contributing to meeting TDML requirements.

Public Comment

Ms. Schlegel,

As a long time citizen of Gloucester County, and as a scientist at the Virginia Institute of Marine Sciences, I would like to register my very strong support for the proposal to designate no discharge zones in Gloucester County's Sarah Creek and Perrin River. This designation will have significant value as an educational tool for local residents and boaters, raising awareness of water quality issues and the importance of personal actions. Effective implementation will help improve conditions that cause both water bodies to be closed to shellfish harvesting, and it will assist the County in meeting its nutrient reduction obligations under the Bay TMDL. I urge the Water Control Board to endorse the application.
